

Who we are

A Global Technology Leader Delivering Cybersecurity, Enterprise AI, and Digital Innovation across National Security, Allied Forces, and Commercial Markets

We are a global technology integrator driving innovation and mission-critical modernization across enterprise AI, cybersecurity and Zero Trust, networks, cloud, C4ISR, data, automation, data centers, and critical infrastructure. Our proprietary platforms - FinBlade AI and ForgeIT - extend these capabilities with enterprise AI, intelligent automation, cybersecurity oversight, and continuous authorization, helping government, defense, and commercial organizations transform operations, strengthen security, and accelerate decision-making.

What we do

CYBERSECURITY

Security Architecture & Engineering | Cyber Defense Operations | Governance, Risk & Compliance | NIST Framework | Zero Trust | SIEM & SOAR | ForgeIT for Cybersecurity Ops Automation

AI/ML SYSTEMS

AI Strategy | Sovereign AI Infrastructure | LLM & Model Engineering | RAG & Enterprise Knowledge | Agentic AI & Automation | Multimodal AI | MLOps | FinBlade AI Enterprise Platform

SOFTWARE

Application Development | Legacy Modernization | Enterprise Applications | DevSecOps | Systems & API Integration | Data Engineering | Workflow Automation | Cloud-Native Development

IT INFRASTRUCTURE

Data Center Design-Build-Operate (Uptime Tier III/IV) | Hyperscale & AI/HPC Infrastructure | Immersion Cooling | Network & Cloud Infrastructure | NOC/SOC/EOC | DCIM, IoT & Intelligent Operations | Sovereign Infrastructure

MANAGED SERVICES

IT Operations & Management | Managed Infrastructure & Cloud | NOC/SOC/EOC Operations | 24x7 Mission Support | Service Desk | Application Management | Program & Service Management

EMERGING TECHNOLOGIES

Computer Vision (CV) & AI Video Analytics | Autonomous Systems | Predictive Analytics & ML | IoT & Intelligent Systems | Edge Computing | Advanced Sensors & Sensor Fusion | Intelligent Operational Systems

COMPLIANCE & CERTIFICATIONS

OUR CLIENTS

Cybersecurity Agency,
Department of Defense (DoD)
Comprehensive Enterprise Cybersecurity
and Zero Trust Services Support

Cybersecurity Agency,
Department of Defense (DoD)
Cybersecurity Program Management Automation -
ForgeIT, Cybersecurity Oversight and Accountability
(O&A) Solution Implementation

Federal Bureau of Investigation
(FBI), FBI HQ, ITSC, CJIS, CIAU
Infrastructure Management, Network & RSA
Operations, IT Asset Management

Federal Emergency Management
Agency (FEMA)
IT Transformation from Legacy to Service
Oriented Architecture (Modernization)

Maryland Department of
Transportation (MDOT),
Maryland Transit Administration (MTA)
AI-based Call Center Design;
Conversational AI

WMATA SmartTrip, Washington
Metropolitan Area Transit Authority
State-of-the-art Cloud-based Regional Customer
Service Center (RCSC) Design, Build and O&M

Bureau of Alcohol, Tobacco, Firearms
and Explosives (ATF)
Network Management Support,
Help Desk Operations

Department of the Navy, N AVFAC (Facilities)
Norfolk Naval Shipyard (NNSY)
Network & Communications Infrastructure
Support | MACD Services

Saudi Data & AI Authority
Uptime Tier III/IV Data Centers and
Command Centers Design-Build, ICT &
ELV, Cybersecurity, AI Systems

Department of Commerce, International
Trade Administration – Data Center Co-Location
Secure Space Infrastructure Renewal
Commissioning & Testing

US Defense Health Agency (DHA),
Military Health Systems (MHS)
Cloud Development
Cloud Development, Data Center, Systems
& Security Engineering Support

Department of Veterans Affairs -
Real-Time Location-Based
Asset Management
Infrastructure Management / Network

United States Census Bureau,
Department of Commerce
Application Development, Testing, Systems &
Security Support, Data Engineering

Federal Aviation Administration (FAA)
Mobility – Policy & Risk Management
– IV&V Role

CONTRACT VEHICLES

- SEWP VI, Cat B – Enterprise-Wide ITC/AV Service Solutions
- SEWP VI, Cat C – ITC/AV Mission-Based Services
- MDA Shield
- FBI: ITSSS 2
- GSA: OASIS+ - Management & Advisory, Intelligence, Facilities, Logistics
- GSA: Highly Adaptive Cybersecurity Services (SIN 54151HACS)
- GSA: IT Services (SIN 54151S)
- GSA: Health IT (SIN 54151HEAL)
- HHS: CIO-SP3, NITAAC
- SeaPort: SB SeaPort-NxG
- DHA: MHS EITS IDIQ (Sub)
- DIA: SITE III (Sub)
- SOCOM: SOF CORE Support (Sub)
- ATF: NMSS 8a SB (Sub)
- DOJ: ITSS-5 (Sub)

MISSION HIGHLIGHTS

- U.S. National Security & DoD [CONUS]: Enterprise Cybersecurity | RMF & Continuous Authorization | Zero Trust | Cyber Defense Operations | Vulnerability & Risk Management | Security Engineering | SIEM/SOAR | Cybersecurity Automation & Mission Assurance (ForgeIT Implementation)
- U.S. Department of Justice / FBI [CONUS]: Enterprise Network Operations | Network Engineering & Infrastructure Management | Cybersecurity & Information Assurance | Data Management | Service Desk & Mission IT Support
- AI/ML & Digital Transformation [CONUS & OCONUS]: Sovereign & Secure AI | AI Systems Engineering | Agentic AI | Enterprise Knowledge & RAG | Data Engineering | Computer Vision & Video Analytics | FinBlade AI Enterprise Platform
- Allied Forces & Critical Infrastructure [OCONUS]: Tier III/IV Data Center Design-Build-Operate | Hyperscale & AI/HPC | Command & Control Centers | ICT & Mission Systems | DCIM, IoT & Intelligent Operations | High-Density Infrastructure
- Commercial & Enterprise [CONUS & OCONUS]: Enterprise AI & Automation | Application Modernization | Data & Analytics | Cloud & Infrastructure | Intelligent Operations

Enabling Technology to Serve Its Purpose. Seamless Integration, Limitless Potential.
